COPPER · CARBON · ALUMINIUM

Premium Hammer

by Tomstroj

620 g copper assembly hammer with an aluminium carbon shaft and knurled anodised grip.

from €45
excl. VAT · Pay by invoice

620 g	Copper	Aluminium carbon	Anodised
TOTAL WEIGHT	TIN-PLATED HEAD	SHAFT	KNURLED GRIP

What it does

Bearings, bushings, pins, housings, fixtures and finished surfaces all need to be driven home without a dent. Premium Hammer delivers a firm, controlled blow through a tin-plated copper face that gives way before the part does. The aluminium carbon shaft keeps the weight where it belongs — in the head — and the knurled anodised grip stays put even with oil, emulsion or water on your hands.

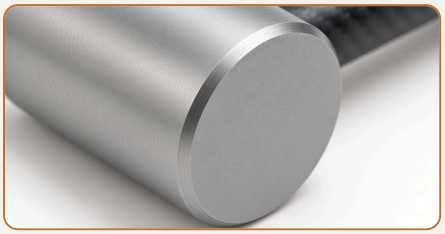

> **Copper does not spark when struck.**

Every material has a job.

- **Copper face** — Softer than the steel it strikes, so bearings, shafts and finished surfaces keep their shape.
- **Aluminium carbon shaft** — Light and stiff, so the hammer feels balanced and precise through a long shift.
- **Knurled anodised grip** — A machined pattern that holds in oil, emulsion and water, where rubber grips go slippery.
- **Tin-plated head** — A protective layer that slows corrosion and keeps the copper looking like a tool you take care of.

i Premium Hammer is not certified for use in ATEX explosive atmospheres. We are evaluating BAM testing for Ex-zone use; until then, check suitability against your site's explosion-protection rules.

Specifications

Weight	**620 g**
Head	**Copper, tin-plated**
Shaft	**Aluminium carbon fibre**
Grip	**Anodised aluminium, knurled**
Overall length	**≈ 260 mm**
Handle length (incl. grip)	**≈ 225 mm**
Head length	**≈ 90 mm**
Head diameter	**≈ 30 mm**
Grip diameter	**≈ 22 mm**
On impact	**Does not spark**
Made in	**Slovenia**

Dimensions are approximate.

Made for six kinds of work

- CNC and machining
- Bearing and machine assembly
- Automotive workshops
- Plant maintenance
- Precision electromechanics
- A gift for professionals

What's in the box

- Premium Hammer
- Hard case with foam (€65 version)
- Care card

€45
Without case
